

Expert Specialty Pharmacy Services

Meeting the specialty pharmacy needs of patients with Hepatitis C

Family Pharmacy draws on more than 9 years of pharmacy management experience to provide a comprehensive program for Hepatitis C management.

This silent disease can be devastating if left untreated ultimately resulting in potential liver failure or even transplant. Compliance with all leading HCV therapies has never been more critical especially with very short courses of therapy.

Close monitoring of patient progress on therapy - based on drug and genotype regimen are central to obtaining optimal therapeutic outcomes.

Key Features of Family Pharmacy's HCV - Direct program:

- HCV Patient Care Team
- Nationally accepted clinical protocols
- Appropriateness/Genotype Validation
- 24/7/365 clinical support with a pharmacist
- Focused compliance tracking
- Reimbursement Specialists
- Same day ship to home/office/suite
- Bilingual customer service
- Ability to support diverse payor formularies

Our extensive service line, location and highly specialized staff of pharmacists, and technicians make us the #1 choice for all of your specialty pharmacy needs.

Where every patient is family... and Hope has no limits

- Specialty Pharmacy
- Therapy Management
- Durable Medical Equipment

Family Pharmacy's HCV-Direct program focuses on individualized care to help patients get the most from their Hepatitis C therapy -

- from order intake
- to appropriateness management
- to fulfillment direct to patient
- to intensive patient follow up, tailored HCV education, and compliance monitoring

Family pharmacy delivers high quality, injectable therapies and select complex oral medications. We maintain on-hand inventory of these medications and administration supplies at all times.

Our professional staff provides in-depth expertise not only in these medications, but also in the proper management of each patient's disease.

Our goal is to help our patients achieve optimal therapeutic outcomes.
